Call for Proposals for Presentations
3rd European Language Congress
of the Polish Association for Standards in Language Education (PASE)

12-14th May 2017

University of Warsaw

On 12-14th May, the Polish Association for Standards in Language Education (PASE) is organising the 3rd European Language Congress entitled 'From good to great. Innovation, Inspiration, Culture.'

The Congress organised by PASE is the largest in Poland and is an unparalleled event in the language education sector within Europe. Its programme covers topics pertaining to every aspect of language education, ranging from practical language skills and language teaching theory to language school management and in-service language teacher training. Congress sessions address all levels of language education, types of schools (both public and private ones), and various target groups, ranging from young to senior learners and students with special needs.

The congress organised by PASE represents an excellent opportunity for meeting top language education experts from across Poland and abroad, to exchange experiences and to present your achievements. The three day agenda of the May meeting provides something of interest to everyone.

We invite experts in language education management, academic teachers, authors of publications on language teaching and language education management, experienced managers and methodologists, trainers and coaches from Poland and Europe to submit proposals for presentations. If you are willing to share your knowledge with language teachers looking for innovative language teaching methods, we encourage you to make a submission.

The PASE congress is an excellent opportunity to present your achievements to 1000 international conference participants.

Presenters and those who chair workshop sessions will be given free access to all sessions of the Congress and attendance certificates. Their names will be published in the promotional materials and on the Congress website.

The sessions will be held in **Polish, English, German, French, Russian and Spanish.**
